Platforms Qualification Standards for TestNav® 8

Overview

TESTNAV QUALIFIED mark and logo are certification marks owned by NCS Pearson, Inc. (the "TESTNAV QUALIFIED Marks"). The TESTNAV QUALIFIED Marks may only be used by entities who have executed Pearson's TESTNAV QUALIFIED Certification Mark Agreement, and in the manner prescribed in the Pearson Certification Mark Usage Guidelines (the "Usage Guidelines"), both of which are available online at www.testnavqualified.com in connection with computer hardware and platforms that meet the Qualification Standards outlined in this document (called "Qualified Products").

All TestNav 8 technical requirements need to be followed when using qualified products: **www.pearsononlinetesting.com/TN8requirements**

Platforms Setup Requirements

1. TestNav 8 App must be downloaded and installed successfully on the platform
2. The platform must provide a kiosk "test safe mode" to be initiated as required by TestNav

Platforms Qualification Standards for TestNav 8

Qualified Products must meet all of the following criteria:

1. From selection of the test to "submit test" the platform is secure and the platform does not allow access to any application, content, or other service beyond the TestNav 8 test assessment delivery system
2. From selection of the test to "submit test" the platform does not allow any screen captures, printing, saving or other electronic replication or duplication of the display screen, source code or content of the test
3. While logging in, no error messages are received
4. All tools work correctly as demonstrated in the baseline Electronic Practice Test (ePAT)
5. There is no noticeable delay when navigating from test item/question to test item/question
6. While interacting with all test items/questions there are no noticeable curser lags, input lags or delays in tool engagement as compared to the baseline ePAT
7. While interacting with video, audio, and Technology Enhanced Items (TEI) there are no significant lags or delays experienced as compared to baseline ePAT
8. At submit, no error message is received
